Brasília, Distrito Federal 17/08/1993 Brasileiro

SUMMARY

Software and Security Engineer with experience in critical environments (public sector and financial industry), combining Java development (Spring, Angular) with offensive security (Pentesting and Red Team). Specialist in identifying and exploiting vulnerabilities, as well as strengthening the resilience of applications and infrastructures.

EDUCATION

01/2009 - 01/2011
Valparaíso, Goiás
High School
Colégio Estadual Almirante Tamandaré

01/2014 - 01/2018
Brasília, Distrito Federal
Bachelor's Degree in Computer Science
Universidade Paulista

02/2018 - 01/2021
Brasília, Distrito Federal
Postgraduate Degree in Data Science
Centro Universitário IESB

02/2021 - 12/2021
Belo Horizonte, Minas Gerais
Postgraduate Degree in Cybersecurity
Instituto de Gestão e Tecnologia da Informação

01/2024 - 12/2024
Aclimação, São Paulo
Postgraduate Degree in Software Architecture with Java
Faculdade de Informática e Administração Paulista

SKILLS

PYTHON | C | JAVA | LINUX | WINDOWS | GOLANG | GIT | SPRINGBOOT | MYSQL | POSTGRES
SQLSERVER | DOCKER | ANGULAR | SCRUM | KANBAN | DEVOPS | BURPSUITE | BASH | GOOGLE CLOUD
AWS | AZURE | ORACLE CLOUD | MALWARE ANALYSIS | ENGENHARIA REVERSA | ASSEMBLY | PENTESTER

EXPERIENCE

01/2017 - 01/2020
Brasília, Distrito Federal
Software Developer
Exército Brasileiro 🇧🇷 - Brazilian Army

- Web system development in Java (JEE, JSF, PrimeFaces, and Swing), applying modern architectural patterns.
- Development of high-performance Java applications using Spring.
- System integration via REST/SOAP and messaging (JMS).
- Database modeling and optimization (Oracle, PostgreSQL, MySQL).
- Experience working in critical environments within the financial and government sectors.

03/2020 - 06/2021
Brasília, Distrito Federal
Software Developer – Financial and Government Sectors
Caixa Econômica Federal (GLOBALWEB) - Brazilian Federal Savings Bank

- Developed web systems using Java (JEE, JSF, PrimeFaces, and Swing), applying modern architectural patterns.
- Built high-performance Java applications using the Spring ecosystem.
- Integrated systems through REST/SOAP APIs and messaging solutions (JMS).
- Designed and optimized databases (Oracle, PostgreSQL, MySQL).
- Operated in mission-critical environments within the financial and government sectors.

EXPERIENCE

06/2021 - 08/2021

Brasília, Distrito Federal

Software Developer

Banco do Brasil (ENGESOFTWARE) - Brazilian Government-Owned Bank

- Developed web systems using Java (JEE, JSF, PrimeFaces, and Swing), applying modern architectural patterns.
- Built high-performance Java applications using the Spring ecosystem.
- Integrated systems via REST/SOAP APIs and messaging (JMS).
- Designed and optimized databases (Oracle, PostgreSQL, MySQL).
- Experience in mission-critical environments within the financial and public sectors.

08/2021 - 03/2022

Brasília, Dsitrito Federal

Software Developer

Sicoob (ACT DIGITAL) - Brazilian Credit Union System

- Designed and developed scalable RESTful APIs and microservices in high-availability, mission-critical environments.
- Developed web systems using Java (JEE, JSF, PrimeFaces, and Swing), applying modern architectural patterns.
- Built high-performance Java applications using the Spring ecosystem.
- Integrated systems via REST/SOAP APIs and messaging (JMS).
- Designed and optimized databases (Oracle, PostgreSQL, MySQL).

02/2022 - 09/2022

Brasília, Distrito Federal

Software Developer

Caixa Econômica Federal (QINTESS) - Brazilian Federal Savings Bank

- Designed and developed scalable RESTful APIs and microservices in high-availability, mission-critical environments.
- Developed web systems using Java (JEE, JSF, PrimeFaces, and Swing), applying modern architectural patterns.
- Built high-performance Java applications using the Spring ecosystem.
- Integrated systems via REST/SOAP APIs and messaging (JMS).
- Designed and optimized databases (Oracle, PostgreSQL, MySQL).
- Experience in mission-critical environments within the financial and public sectors.

03/2022 - 06/2023

Brasília, Distrito Federal

Software Developer

Tribunal Superior Eleitoral - Brazilian Superior Electoral Court

- Designed and developed scalable RESTful APIs and microservices in high-availability, mission-critical environments.
- Developed web systems using Java (JEE, JSF, PrimeFaces, and Swing), applying modern architectural patterns.
- Built high-performance Java applications using the Spring ecosystem.
- Integrated systems via REST/SOAP APIs and messaging (JMS).
- Designed and optimized databases (Oracle, PostgreSQL, MySQL).
- Experience in mission-critical environments within the financial and public sectors.

01/2023 - Presente

Brasília, Distrito Federal

Software Engineer

LOQED

- Designed scalable architectures using Java (Spring Boot) and microservices.
- Implemented security best practices (authentication, authorization, and data protection).
- Integrated systems via REST APIs and messaging solutions.
- Worked in DevSecOps environments and provided technical leadership in agile teams.

09/2023 - Presente

Brasília, Distrito Federal

Security Analyst

LOQED

- Conducted penetration testing (Pentesting) on applications, networks, and systems, identifying vulnerabilities.
- Performed Web, API, and network penetration tests, identifying critical security issues.
- Engaged in Red Team operations, simulating advanced attack scenarios.
- Developed exploits and validated vulnerabilities in controlled environments.
- Produced technical reports and provided strategic security recommendations.

KEY ACHIEVEMENTS

Pix Implementation

Contributed to the implementation of the Central Bank's Pix instant payment system at Caixa Econômica Federal, ensuring secure and efficient integration with the national financial system.

Implementation of the Emergency Aid Program

Contributed to the implementation of Brazil's Emergency Aid Program at Caixa Econômica Federal, covering system integration, development, and validation of scalability, security, and compliance requirements.

Played a key role in ensuring that millions of citizens had access to financial support during the pandemic.

KEY ACHIEVEMENTS

Collaboration in Security Projects

Worked as a Bug Hunter at Hunterspay, identifying and reporting critical vulnerabilities to strengthen the security of digital systems

Hacker Ranking – Hackviser

Hands-on experience in real-world offensive security scenarios, focused on vulnerability exploitation and advanced Capture The Flag (CTF) challenges.

Ranked Top 1 in Brazil and Top 4 worldwide on the Hackviser platform, demonstrating advanced technical expertise, strong analytical skills, and the ability to identify and exploit critical vulnerabilities in applications and systems.

INTERESTS

Hacking

Turning curiosity into practical knowledge by exploring systems, testing limits, and applying ethical hacking to strengthen digital defense.

Programming

Combining creativity and technology to develop efficient, scalable software that makes a real impact in everyday life.

Data Science

Transforming large volumes of data into actionable insights that support smart decision-making and drive innovation.

LANGUAGES

Portuguese
Native

English
Intermediate

Spanish
Beginner

COURSES

FULL STACK DEVELOPMENT BOOTCAMP

IGTI Bootcamp (2020), focused on building full-stack applications and practical software development skills.

JAVA SPECIALIST

AlgaWorks, completed in 2021, focused on mastering Java skills.

DESIGN PATTERNS APLICADOS A JAVA

AlgaWorks, completed in 2022, focused on strengthening knowledge of design patterns in Java.

SPRING REST SPECIALIST

AlgaWorks, completed in 2022, focused on developing robust applications with cutting-edge technologies.

JPA SPECIALIST

AlgaWorks, completed in 2023, focused on best practices in data modeling and implementing database optimizations with JPA.

MICROSERVICES JAVA SPECIALIST

AlgaWorks, completed in 2025, focused on developing modern and scalable applications using cutting-edge technologies.

DOCKER SPECIALIST

AlgaWorks, completed in 2025, focused on developing, configuring, and maintaining Docker environments to facilitate system deployment.

ETHICAL HACKING REVERSE ENGINEERING MALWARE

GoHacking, completed in 2025, focused on malware reverse engineering and its practical application.

ETHICAL HACKING MALWARE DEVELOPMENT ESSENTIALS

GoHacking, completed in 2025, focused on Windows malware development and C2 infrastructure development.

CERTIFICATION

🔴 RED TEAM / PENTEST (TOP)

- **API RED TEAM ANALYST (API-RTA)** – CWL
- **ACTIVE DIRECTORY RED TEAM SPECIALIST (AD-RTS)** – CWL
- **CERTIFIED WEB SECURITY EXPERT (CWSE)** – Hackviser
- **CERTIFIED APPSEC PENTESTER (CAPEN)** – The SecOps Group
- **CERTIFIED NETWORK PENTESTER (CNPEN)** – The SecOps Group
- **SOLYD CERTIFIED PENTESTER (SYCP)** – Solyd
- **SOLYD WIRELESS PENTESTER (SYWP)** – Solyd

🔵 BLUE TEAM / DEFENSIVE SECURITY

- **CYBEROPS ASSOCIATE (CYBEROPS)** – Cisco
- **MULTI-CLOUD BLUE TEAM ANALYST (MCBTA)** – CWL
- **ANALISTA DE SOC** – IBSEC
- **SEGURANÇA EM LINUX** – IBSEC

🟣 FORENSICS / MALWARE / REVERSE ENGINEERING

• **ETHICAL HACKING REVERSE ENGINEERING MALWARE (EHREM)** – GoHacking
• **ETHICAL HACKING MALWARE DEVELOPMENT ESSENTIALS (EHMDE)** – GoHacking

☁️ CLOUD / MULTI-CLOUD

• **AWS CERTIFIED CLOUD PRACTITIONER (AWS-CCP)** – AWS
• **AZURE FUNDAMENTALS (AZ-900)** – Microsoft
• **MICROSOFT SECURITY, COMPLIANCE AND IDENTITY FUNDAMENTALS (SC-900)** – Microsoft
• **ORACLE CLOUD INFRASTRUCTURE FOUNDATIONS ASSOCIATE (OCI)** – Oracle

🧩 Other Relevant

- **JUNIOR PENETRATION TESTER (eJPT)** – INE
